

DECEMBER 2017

Bungoma Bible
Ministries

Dear Nekesa (Harvester),

Merry Christmas and Happy New Year!

We pray you and your families had a blessed and prosperous time celebrating the birth of our Lord and Savior Jesus Christ this last Christmas! As the New Year has come, we want to celebrate all that you have been a part of this last year!

Over 2017 You were part of bringing the message of God's unconditional love and grace to the people of Kenya.

1. You Invested into the lives of our Bible School Students! You were part of training them to take the gospel of our Lord Jesus Christ into all the world. Through them you were part of the many salvations that came from the crusades that our students did this last year. **You brought them Hope!**
2. You invested in giving food to fill the stomachs of the street boys, clothes to cover them, and the message of God's love through myself, our staff, and BBS students to these boys on the streets. **You brought them Hope!**
3. You invested in the children from Bungoma Bible School Children's Home above all. You provided food for them, clothes, a bed for them to sleep in, provided funds for them to have an education for a future, shared the love of our Lord Jesus Christ with them! **You brought them Hope!**

Thank you for the Hope you have brought to each of these children and training ministers. You are changing the world by the lives you have invested in here. Each of these little ones will grow into strong and mighty men and women who will be trained and prepared to touch even more lives.

Your seeds of giving are already multiplying through the lives they go out and touch. The Harvest is multiplying!

Will you continue to bring Hope in 2018 to these little ones?

DECEMBER 2017

"I know the plans I have for you" declares the Lord, **"Plans to bring you a Hope and a Future."**

- Jeremiah 29:11

This year we have 16 boys attending High School this year. As we have shared before, the education here is not the same as in the United States. Higher education is not provided for by the government. If a family desires to have their child educated they must pay the costs for their education from their own income.

In Kenya the **average household income is the equivalent of \$1200 US dollars**. The **average cost per student per year is between \$1200-\$1400 US Dollars**. Funds are needed to continue to send the boys to school. This cost is why so many in Kenya are not educated. Without education a nation cannot grow and develop. This is something that many in America understand. This is a basic human right, to pursue education no matter the race or financial status of a family. Here education is only a privilege for those that have the financial status to provide for their children. It is not considered a basic human right to pursue education in Kenya.

I'd like to encourage you to give extra in 2018 to **continue to bring Hope** to these boys! Hope of a education that will prepare them for their future!

When these boys receive an education they will be able to take on jobs in the areas of their gifting to **bring Hope** and change to Kenya! We are their Family; You are their parents! Providing this education for them will **bring them Hope of a bright Future, and continue lifting Kenya**. As we continue to care for these orphans, we are caring for our Lord Jesus Christ!!!

"Truly I say to you, **in as much as you did it to one of the least of these brothers of mine, you did it to me.**"

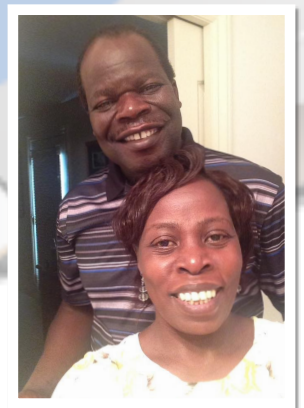

Matthew 25:40

Will you be part of the Impact of Hope on Kenya?

Forever Grateful, Justus Ochuro
