

Saving Our Future

Dear Nekesa (Harvesters),

We praise our Lord Jesus Christ for you often! It is through your partnership and gifts that we are able to bring the power of the Gospel of Jesus Christ to Kenya.

We have a Praise Report for you!
A few years ago we shared with you about a new young boy we received in Bungoma Children's home, Moses Baraka. He was abandoned in a Sugar Cane plantation being severely malnourished and beaten. We had the privilege of loving Moses and caring for him over the past few years. We were able to see him heal both physically and emotionally from the wounds created.

Moses is one of the happiest boys in the home. There have been such an amazing change in his life! We have workers in the Children's home, house mothers and fathers, that take time caring for the boys, helping them with home work and loving on them. It is through that care that we see boys, like Moses, received healing and empowerment to grow into the men of God they are called to be.

Moses will be joining High School this year for the January enrollment!

Moses at 2 years when we received him.

Moses Now! He is going High School!

Moses Baraka

This January we have 7 boys going to High School in Kenya. In Kenya High School is not provided by the state it is only provided through the private sector and it must be paid for. We are believing the Lord of the funds need to enroll all 7 of them into High School this January so they can continue their education.

We have seen such beautiful testimonies unfolding for each of them just as we have with Moses Baraka. We desire to see them continue walking in their testimony and education to fulfill the call of the Lord on their lives.

Would you join in their training by sending extra this season to provide funds for the boys January enrollment tuition for High School?

Our 7 Boys going to High School

Emmanuel Wanyoni

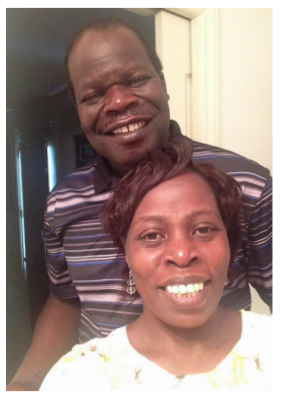

William Nganyi

We believe that by raising these young men of God, in His Word and in education, that we will change Kenya into a Nation that is a lighthouse on a hill.

Thank you for your partnership and gifts that pay our workers, pay for the boys schooling and pay for the food, clothing and much more that is needed. You are making a difference!

Forever Grateful,
Justus Ochuro
