

Training them up in the Way they Should Go

Dear Nekesa (Harvester),

The Word says in Proverbs 22:6 "Train up a child in the way he should go and when he is old he will not depart from it." This is a mandate we have for our children for more than food, clothing and shelter.

It is rare that a child here in Kenya, even from a good home, will be able to attend high school to receive an education. Most children are raised up working for their families in

Our boys entering into High School.

order to bring in

money for supporting the families basic needs. So it goes to reason that these families do not have the \$1,200 a year it takes for their child's education.

Edwin, Brian, Nelson, and Carlson
New High School Members

We believe the reason that the Lord Jesus Christ has given us our children was to train them; to be the change for the nation of Kenya. We are not simply feeding and clothing these children to return to society as an adult

with no trade, no skill, no education, to only continue the same poverty they came from. They are truly loved as our own, and raised on the teachings of the Holy Bible.

We are also here to educate and train them to be valuable members of society; to be the nation changers that Kenya needs. We want to equip them to be lawyers who change unjust laws, to be doctors who cure aids and incurable diseases, and (who knows) maybe even be the president of Kenya to influence the government of Kenya in turning towards Jesus Christ our LORD.

Nelson Wafula

Carlson Juma

The School Year in Kenya is February through November, as we are on the same schedule as the southern hemisphere. We are preparing our eight boys that will be attending high school next month. We have 4 new boys that are entering into high school for the first time.

I'd like to brag on how well our boys are doing for a moment. In order to enter into high school, they must pass their finals of the National Kenya Certificate of Primary Education (K.C.P.E). This is a national examination that is all across the country for three days. After the exams, everyone is evaluated and ranked. We are happy to announce that all the children passed successfully, and now are given a chance to attend a very good school. It is really such an incredible journey to see them move from one level of schooling to another. Most of these boys have been with us from their nursery years!

Edwin Omondi

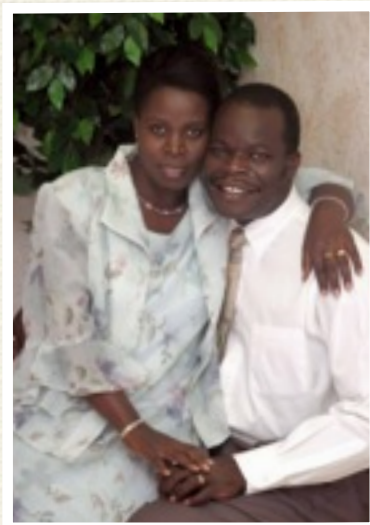

It costs about \$1200 per year to send one child through school in Kenya. This is the average income of a Kenyan family! This is why the majority of children do not have the opportunity to receive an education. These schools, just like our children's home, are government regulated but are not government funded.

Brian Namanda

Would you respond to being a part of training up these children in the way they should go? Please be a part of changing the nation of Kenya and the world through these boys.

We would also like to announce that we now have online giving available for your convenience. Please visit our website at www.bungomabibleministries.org and click on the donate button to give.

Justus and Margaret

Thank you for your faithful support and prayers. We love you and are praying for you daily!
Forever Grateful,

Justus Ochuro
