

## Bringing Change

**Bungoma Bible  
Ministries**

Dear Nekesa (Harvester),

This month we want to share with you a few of the testimonies from the students in Bungoma Bible School.

"I had a desire to attend a bible school. However, my parents and family are not able to help pay for my educations. When I learned that Bungoma Bible School is so inexpensive because they have partners who pay for the students tuition, I knew this was the school I'd be able to attend.

The moment I began to attend in Bungoma Bible School I was taught about who I am in Christ. I learned about the calling and the gifts of God already placed in my life and how to grow in the Word. It is my desire to take this same message of our Lord Jesus Christ and bring the same freedom to people that it has brought me."

~ Lipton

"Eight years ago I attend a crusade that was from Bungoma Bible School. It was at this crusade that I received Jesus as my Lord and Savior. Then, I started to read the Word and I wanted more. I could only understand the bible as looking at the face of a clock.

Once I began to attend Bungoma Bible School I learned so much about the Word. I learned there are many rooms and more to discover everyday that I read the Word from my Father God. I see the love of God for us in every verse and the friendship He desires to have with each of us. I became so free to see the authority that God has given to us to walk in, the truth that His Word brings us."

"I had a passion in me to come to Bungoma Bible School. I heard about the curriculum that is taught here and that people that come here learn through practical application and not just books. In one class we learned about the life of Christ. I love this class because we learned about the life that our Lord Jesus led. He was active in ministering the heart of our Father to everyone. We also do crusades, evangelism, practical training in computers, and life skills. Bungoma Bible School has changed me personally and through me it can change many others - just as it has used you to bring change to us."

~ Immanuel

Bungoma Bible Ministries thanks you for your partnership. Just as Immanuel said, you have brought the life changing message of God's unconditional love and grace to the people of Kenya. We have students from all over Kenya and Africa that have come to Bungoma Bible School.

Bungoma Bible School is supplemented by your partnership to Bungoma Bible Ministries. The rate of living is so costly to Kenyans that most will never receive an education. Other Bible Colleges in Kenya cost 5 times the amount of Bungoma Bible School. The students are only required to cover partial room and board. This allows them to commit to full time training with jobs at night or on the weekend to cover their cost of living.

It is YOU who helps pay the tuition for these students to receive the training from Bungoma Bible School. YOU are the one Jesus uses to lift the poor into His riches. YOU are bringing change to the nation of Kenya!

Forever Grateful,

**Justus Ochuro**
