

Partners Catch More Fish

Dear Nekesa (Harvester),

We've got good news! Those of us at ministry headquarters in Colorado Springs are financing a trip to Bungoma, Kenya. The trip will be in July for 2 weeks and return with Justus and Margaret Ochuro!

While in Kenya, we will be checking on the work of the ministry - finding out more about the depths of how much Bungoma Bible Ministry is effecting the children, the bible school students, and the nation of Kenya. We are looking forward to sharing with you in the July letter about the great things we see God doing in Kenya through Bungoma Bible Ministries.

We will be returning with Justus and Margaret who will be in the U.S. from July 22nd - September 21st. On this trip they are tasked with the responsibility to establish new partnerships.

Luke 5 tells the story of Peter having cast out his net at the instruction of Jesus. Having done so, it was such a large net breaking catch that Peter signaled his partners in the boat near by to assist in catching the fish. After this experience Jesus told Peter that he will now be a fisher of men.

As fisher of men we are experiencing that same net breaking catch in Bungoma, and we are calling out to you, our partners, to help us catch more fish.

Over the last year our partners, as Doris Stotlar always was, have been very faithful and passionate for this ministry. However, just as a time came for Doris to return home to receive her heavenly reward for her work in Bungoma Bible Ministries - so have many of her partners. We find that in order to keep this net breaking catch, we need new partners who will also love and support this work that to us is an uttermost part of the earth.

Will you join us by taking ownership of Bungoma Bible Ministry to help grow its partnership base? This can be as simple as hosting Justus and Margaret for a weeknight in your home and invite all your family and friends over to hear about the work that you are supporting. They can hear first hand of the ministry that you are involved in and the lives that you are changing everyday through your prayer support and giving.

We would like you to set up meetings for Justus and Margaret to share with you all the good news of what Jesus Christ our Lord is doing in the lives of the children, bible school students, and all the people of Kenya and beyond. Would you consider inviting Justus and Margaret to share this good news with your friends, family and church?

We understand that not everyone can host Justus and Margaret, but what would you like to do to help the Children's home, Bungoma Bible School, and the ministry in Kenya that you love and have already given so much to?

We at Bungoma Bible Ministries pray for you daily, we pray over

your prayer requests and we never cease to make mention of you in our prayers. We are ever thankful for your partnership, financial support, and prayers. We are truly blessed and we thank our Lord Jesus Christ for you daily.

Forever Grateful,

Jim Hamilton
