Investing in Changing the Nation of Kenya

Dear Nekesa (Harvester),

Ezekiel is a 15 year old boy in our Children's Home. He is preparing to enter High school this year. He was orphaned in 2005 and we were able to bring him into the children's home because of your faithful support.

Ezekiel has a passion for music and dance. He is very involved with volunteering at the Church and being a brother to the your boys of the children's home.

Ezekiel is the future of Kenya, and as such we are investing in him. We will be sending him to High School this year to receive an education that he would not have received if we had not brought him into the children's home.

Ezekiel Wekesa

Francis Mukhebi is 15 years old, he also was orphaned in 2005. Francis loves to play soccer and is quite a good player. Though he is more quite than the other boys in the Children's home, he has a heart of gold and loves to bring joy to the other boys in the children's home.

Francis is the future of Kenya, and as such we are investing in him. We will be sending him to High School this year to receive an education that he would not have received but for your faithful support that has provided a place for him in the children's home.

Francis Mukhebi

Moses Ochieng is 16 years old. He was orphaned in 2005 and joined our Children's home. From the day he entered we knew that Moses was going to do great things. He has been a wonderful example and a big brother to all the boys in the children's home.

Moses wants to be a doctor. He is very excited to be entering High school to begin his education in February along with Ezekiel and Francis. They are the next 3 boys from the Children's home to enter High school. As of 2016 we will have all eleven boys in high school.

Moses Ochieng

High School education is not common in Kenya. It is costly and is only available as a boarding school. The costs for the education, boarding, and feeding of the students must be paid for by the parents. In this case you are their parents. It is because of your support that the children's home has been able to bring these boys into a loving home and raise them up in the way of the Lord. It is also because of your support that these eleven boys will be able to continue their education and become the future leaders of Kenya.

The costs of high school education is \$1,200 a year per students. We have 11 boys that are excellent students - at the top of their class. They are excellent ground to sow into. We are planing to raise a total of \$13,200 for one year of school - \$1,200 times 11 boys.

Our 8 boys currently in High School

Will you prayerfully consider giving an extra special gift this Christmas by investing in the future of these eleven boys whom you have faithfully been supporting?

Thank you for being part of the great adventure of changing the nation of Kenya for our Lord Jesus Christ!

You Are A Blessing!
