

Operating in Pure Religion

Dear Nekesa (Harvesters),

We are operating in true religion according to James 1:27 "Religion that God our Father accepts as pure and faultless is this: to **look after orphans** and widows in their distress and to keep oneself from being polluted by the world."

As you are aware we are still operating in a world that is shut down by the affects of the Corona virus. We have also experienced a plague of locust that has created a shortage of food for the people of Africa.

Street Kids Ministry

Over the year we have been doing ministry wit the street kids in feeding them and brining them clothing. This was a ministry we did with 3 other churches as well. However, the government shut down the restaurants and eateries and with the shortage of food due to the plague of locusts eating the crops, food has been hard to come by. This has caused the other church being unable to continue feeding the children on the streets.

In spite of these effects we have been blessed to continue to look after the orphans. **We are feeding 60 street kids** by having our house parents from the oChildren's Home cook more meals. Also the older boys from the Children's Home have been learning to cook as well to help us cook the amount we need each day to feed the street kids.

We are so proud of our older boys, that have returned from University, stepping up to help provide the food needed. They are learning valuable lessons in servanthood.

Children's Home

We are also looking after the orphans in the Children's Home. We have all of our older boys that have been away for school back home. We are so happy to have them home and save during these times.

Unfortunately the money that we have paid for the boys schooling and their room and board at their schools we will not be receiving back. This does leave us needing to increase funds to cover the additional food and the tutors that we will need to continue the boys schooling at the Children's Home. We do not want the boys falling behind on their schooling and desire to continue their education from home.

Now that we have all the boys home at the same time we do not have enough mattresses. We have arranged it so a few of our younger and smaller boys share their beds to make it work. However we are in need of 2 beds for our boys.
