

Dear Nekesa (Harvesters),

We want to thank you for your continued prayers through this last month as we were going through our third lockdown. We are happy to report that the lockdown has been relaxed this month. There's much work to catch up on. We still have restrictions placed upon us in how we operate, but we are happy that we are now allowed to continue the good work!

We want to let you know that Margaret, myself, our children and grandchildren are all healthy and doing well. Our youngest son, Joshua, has been unable to come home from his school to be with us during this lockdown due to the travel

restrictions. But we are happy to report that he is safe, healthy, and doing excellent in his studies.

Our boys in the Children's Home

The children from our Children's Home are all healthy and doing well. **It is because of your prayers and support** we have been able to continue to care for them through the lockdown.

Teaching at Bungoma Bible School

The boys are also receiving tutoring to continue keeping up with their education until classes resume in the school. Currently, the government is saying that schools for the children may start back in January of 2022. This is the usual time for school to start.

Bungoma Bible School is now able to meet back in session! We are so blessed to have our students back. We are still socially distancing and wearing our masks per our national mandate.

Everyone is healthy and doing well. The Word of God must be taught and go forth!

Feeding Program for the Street Boys

We are resuming our feeding program to the street kids! They will be recovering from a month of scarcity and hunger when they had to search for their own food. Yet, each of these boys is created in the image of God. As we are caring for them, giving them food and clothes, we are caring for our Lord and Savior Jesus Christ. We are so blessed to have your financial support and prayers to provide food for these precious little ones!

Word of Life Christian Fellowship - Justus Teaching

Finally we are excited to resume our church services for 'Word of Life Christian Fellowship'. We do have social distancing in place and a requirement to only allow a low percentage of congregants at a time. In order to help with the restrictions and reach our people we are still having all our services live streamed for everyone to view from home if they do not feel comfortable traveling. But still, many do not have that capability for internet.

As we are approaching these summer months, Margaret and I would usually come to the United States to travel and visit in person with you, our Church Family. Unfortunately, with the current travel restrictions, Margaret and I will be unable to be with you this summer. This will make it 2 years in a row that we have been unable to fellowship with you and connect. This has been hard for us in 2 ways - One: we miss our fellowship with you and the encouragement we receive from one another, Two: this is the time of year we are able to be a reminder to you and your congregation for the good work we are doing together in Africa, and that it is you who provides us with financial support for this work. We receive a majority of our yearly support during these visits.

With being unable to come to you this year, we would like to ask for your continued help!

Justus and Margaret Ochuro

Firstly, Would you write Margaret and I about how you are doing, how we can encourage and pray for you? Write us, and share what the Lord have placed on your heart! Your emails are forwarded directly to us. Secondly, we would like to ask that you not forget us. Please remember us with your church and continue to be a strong supporter and partner with Bungoma Bible Ministries. We are continually thanking our Lord Jesus for you in prayer. Margaret and I love and appreciate your prayers!

Forever Grateful,
Justus Ochuro
