

### Serving Those At Risk in the In the Name of the Lord

Dear Nekesa (Harvesters),

Over these past few months, with the pandemic, many families are suffering from famine, the illness and fear. They are unable to provide for their children. This has caused many children to be forced from their homes to search for food. The other churches and other humanitarian organizations have stopped feeding the street kids for fear of the virus or lack of funding. The boys are left with no home, and seemingly no one that will care for them, feed them, or clothe them.

These boys are at a higher risk for death as they live on the streets. They have no access to protection, sanitation, shelter, and basic necessities. The streets are not only dangerous, but the boys are sleeping out in the cold every night.

Bungoma Bible Ministries has a mandate from our Lord Jesus Christ, that we are to care for orphans. This means that despite the concerns of the virus and supply, we will continue to feed and clothe these boys who have been abandoned to the streets.

The Children at home, yet at school. These are blessings to us all and they are Kenya's future!

There are constant groups of street boys coming every day. Due to regulations, we are only able to feed a small number of the children at a time. We remain committed to staying open to ensure that every last child who is hungry receives food, clothes, and hears the Word of our Lord Jesus Christ - of His love for them. We are showing His love through our actions and His own Words.

We are feeding about 150 street boys 7 days a week now. The cost to the ministry is running about \$2,800 a month which is above our regular operational costs. This would equate to about \$20 per child each month to show them the Love of Jesus by feeding them and speaking God's Word to them.

We have received more children into Bungoma Bible Children's Home these last few months. We now have 44 children that we are providing for at the Children's Home. The country is still closed. This means that we are schooling all 44 boys from preschool through High School this last year.

We are hopeful the country will open in January so the children can return to school for their education, and the Bible School students can return to classes. We know they need the relationships they build with their classmates as they grow. While they have enjoyed time out of school, even they are asking when they can go back to school. This has been the longest spring break our children have ever experienced!

What a privilege it is to serve these little ones and guide them in their relationship with our Lord Jesus Christ. We provide their education at school and their training in the Lord at the Bible School once they are old enough.

The extra costs of care for these children have risen with the famine and food shortages, and we are not able to travel to the US. We are asking for your help to navigate these difficult times.

Will you feed a hungry child from the street by giving an additional \$20 a month? "Truly I say to you, to the extent that you did it to one of these brothers of Mine, even the least of them, you did it to Me." ~ Matthew 25:40

Also, I'd like to share with you our joy - both John and James, our two oldest sons are expecting the birth of their children! John's baby is expected very soon this October and James' baby should arrive in November. We are so Blessed!!

Thank you for your faithful prayers and your partnership. Margret and I pray for you daily and Thank our Lord Jesus Christ for you daily!

Forever Grateful,  
**Justus Ochuro**
